

## Glass Policy Verification

Glass Policy Verification Audit	
Auditor Name	
Date	
Site Standards	Audit Findings
Are all employees including agency staff, visitors and contractors familiar with and follow the Glass & Perspex Policy?	
Is the use of glass on the manufacturing site minimised?	
Wherever possible are alternative materials to glass used?	
Are all personnel prevented from taking glass into production areas?	
Is there a comprehensive list of all glass (and glass-like materials) in each department for all factory production areas?	
Are these items checked every day by the Supervisor responsible for the department at the start of production and at the end of production to ensure they are not damaged?	
Are the results of the inspection recorded on a Glass Register and signed off?	
Is any breakage of glass occurring reported and dealt with immediately using the glass breakage procedure and record?	
Is glass used on food packaging vessels such as 'sight glass' in viewing ports and vessel level indicators replaced where possible with suitable alternative materials which are capable of withstanding the production process?	
Where glass cannot be replaced due to process pressures and temperatures, is it 'toughened' and conform to International Standards?	
Are glass components which are present in equipment such as temperature recorders and clocks replaced with suitable non-brittle alternatives?	
Are mirrors where permitted outside of production areas made of non-glass material or covered in a security film?	
Are internal or external glass windows present in production areas, raw materials, finished goods and packaging stores; engineering workshops replaced or made of toughened glass and be covered by a protective film?	
Where replacement of glass is not possible or the cost of replacement is unreasonable, is a suitable shatter-resistant
